

Storage Solutions That Help You Work Smarter

 **DATUM**[®]
Designed for **more.**

 **MADE IN
THE USA**

Organize. Store. Secure.

No matter what you need to store, customized storage systems by DATUM help you save time, increase efficiency, and reduce the cost of managing and securing your critical inventory.

Maximizing Storage Efficiency Since 1968

At DATUM, we have been helping organizations worldwide maximize storage efficiency for over 50 years. From paper files to business inventory, to firearms, technology, and even artwork, our systems enable speed, security, and dramatic cost savings over time.

When your critical inventory is quickly accessible, robustly secured, and consolidated into a smart, space-saving storage system, your team will work faster and your organization will run smoother.

TRUSTED SINCE 1968

Family-owned since the beginning, we put our customers first in order to build relationships that stand the test of time.

PROUDLY MADE IN THE USA

Our 100% US-based team and manufacturing plant can respond quickly and personally to orders and customer needs.

LIMITED LIFETIME WARRANTY

We stand behind our products personally, and promise to take care of any issues over the lifetime of our systems.

Mobile Aisle Storage Systems

Store any type or size of inventory in less than half the space of traditional non-mobile shelving.

4Post Shelving

Infinitely customizable shelving systems that can organize everything from small files to bulky inventory.

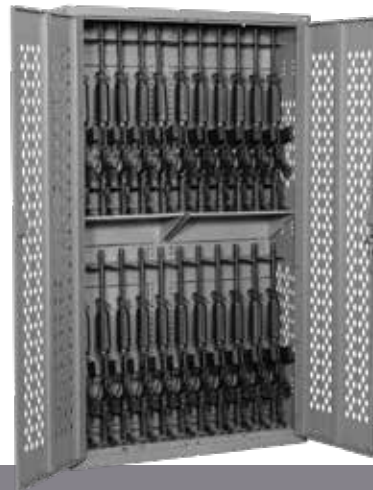

Ez2 Storage Systems

Organize and secure just about any type of property, files, or electronics in secure, rotating enclosures.

Custom Locker Systems

From traditional employee storage to police, fire, and first responders, we can help secure personal items or gear.

Secure Weapon Storage

Police departments and government agencies trust our locking storage racks to secure rifles, pistols, and all types of weapons.

Tech Storage

Store and charge the latest technology like mobile phones, tablets, and more to keep your staff organized and online.

TWICE THE STORAGE IN HALF THE SPACE

MOBILE AISLE STORAGE SYSTEMS

MobileTrak

MobileTrak systems from DATUM are mobile, high-density storage solutions that allow you to organize and store more items using less space. These storage systems accomplish this by eliminating all but one aisle and making that aisle movable using a series of carriages mounted on rails.

Carriages are easily shifted left or right via manual, mechanical, or powered systems for quick, convenient access to stored items. This design allows you to fit more than double the storage in the same space as traditional stationary shelving. In addition, storage can be easily expanded by adding carriages as your storage needs grow.

- Maximize storage capacity in any space
- Organize huge inventories
- Customized to your space & needs
- Wide range of options & styles
- Integrated safety locks
- On-floor or recessed rail systems
- Manual or motorized options
- Customizable interior shelving
- Built to any dimensions
- Customizable colors & finishes
- Applied graphics available
- High-quality powder-coat finish
- Limited lifetime warranty

SAFE, EASY ACCESS TO STORED INVENTORY

CUSTOMIZABLE STORAGE SHELVES

4Post & Wide-Span

4Post and Wide-Span shelving systems from DATUM are sturdy, flexible solutions that can help you organize a wide variety of materials of varying size and weight. Whether you're storing books, office supplies, boxes, equipment, manufacturing parts, or something else, these systems will effectively organize your materials and increase your operational efficiency.

The modular design of 4Post and Wide-Span systems allow you to maximize space and easily scan stored items at a glance. While 4Post can be customized with drawers, dividers, shelves, and more, Wide-Span's heavy-duty steel construction means it can accommodate large quantities of heavy items. Both systems offer the flexibility to store just about anything.

4Post Features

- Adaptable to store any type of material
- Wide range of accessories
- Customized to your space & needs
- Drawers, shelves, dividers & more
- Secure, locking systems available
- Combine with MobileTrak or TrakSlider
- Complete customization to your needs
- Limited lifetime warranty

Wide-Span Features

- Designed to store large or bulky items
- Available with steel or particle board shelves
- Shelving up to 96"W x 48"D
- 14-gauge steel uprights
- Heavy-duty construction, built to last
- Durable powder-coat finish
- Limited lifetime warranty

A REVOLUTION IN HIGH-DENSITY STORAGE

ROTARY ACTION FILE

Ez2

The Ez2 Rotary Action File is a user-friendly, rotating storage system that maximizes available space for storing files, books, office products, medical supplies, weapons, equipment, and more. Its efficient design features shelves that spin 360 degrees and are accessible on both sides to increase productivity and access. Storage can be configured in the front and back of each unit, providing twice the storage space within the footprint of a single storage unit.

This system rotates easily and without a foot pedal, which reduces its footprint and protects the safety of personnel by eliminating trip hazards. The elimination of the foot pedal also simplifies access to stored items, as each rotating unit spins easily and with minimal effort.

- 360-degree rotating storage unit
- Double-sided storage access
- 2 to 8 shelf openings
- Adjustable shelves on 1/2" centers
- Locking or non-locking doors and drawers
- 4 lockable positions for rotating storage
- Install freestanding with double-sided access, or in-wall with single-sided access
- Heavy-duty steel construction
- All shelves are reinforced for extra strength
- Secure, HIPAA-compliant storage
- Powder-coated finish available in multiple colors
- 12 laminate selections
- Limited lifetime warranty

SECURE STORAGE FOR GEAR, PERSONAL ITEMS & MORE

CUSTOM LOCKER SYSTEMS

GearStor & TA-50

Whether you're storing personal items, gear, weapons, or something else, custom locker systems from DATUM help you secure property for easy access. With multiple styles to choose from, each of our systems can be designed into a custom locker bank that will fit your specific dimensions and requirements.

Our GearStor lockers are a practical solution for personnel who need to secure and store uniforms, equipment, go bags, personal items, and more. Our TA-50 Economy Equipment lockers are designed to store gear, with full-access double doors and generous ventilation that reduces drying time for stored items. In addition, all of our locker systems can be equipped with garment rods, full and partial shelves, and hooks. Optional components such as accessory panels, security boxes, and boot trays are also available.

- Heavy-duty steel construction
- Reinforced top and bottom
- 14-18 gauge welded steel frame
- Solid, louvered, or ventilated doors
- 1-inch slotted uprights
- Continuous piano hinges
- 3-point lock
- Electrical options available
- Available in various sizes and configurations
- Leveling glides
- Powder-coated finish available in multiple colors
- Optional accessory panel supports
- Compatible with Datum Weapon Rack components
- Limited lifetime warranty

STORAGE FOR SECURITY, ORGANIZATION & READINESS

CUSTOM WEAPON STORAGE

G2 & Weapon Racks

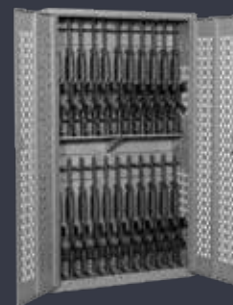

Secure, organized, and ready to mobilize. Whether you're a member of law enforcement, a tactical response unit, or the armed forces, preparedness is key to reacting quickly. Plus, when it comes to weapon storage, our line of versatile, customizable storage systems will help keep your weapons, equipment, and ammunition at the ready.

Our enclosed cabinets and open racks are engineered to maximize efficiency and the use of space, all while staying organized and ready. They're fully customizable with interchangeable components for different weapons and gear. With heavy-duty welded steel construction and a wide selection of components, you can easily accommodate virtually any type of equipment and store it worry-free.

- Heavy-duty steel construction
- Reinforced doors and hinges
- Fully adjustable brackets, shelves, mounts
- Store rifles, pistols, and ammunition
- Store optics, body armor, and accessories
- Hinged or bi-fold doors
- 5- or 7-point locking mechanisms secured with a key lock or padlock hasps
- Available in various sizes and configurations
- All variations comply with U.S. Military standards
- Integrates with high-density storage systems
- Powder-coated finish available in multiple colors
- Limited lifetime warranty

KEEPING CRITICAL TECHNOLOGY POWERED UP

TECH STORAGE SOLUTIONS

Computer & Device Storage

Secure, efficient, and built for today's technology. Whether you're managing IT assets in a school, government facility, or corporate environment, protecting and organizing your devices is essential. Our line of computer lockers, bulk laptop storage, and charging stations is designed to safeguard your technology while keeping it fully powered and ready for use.

From individual computer lockers to high-capacity charging carts and tablet storage stations, every solution is engineered for maximum efficiency and flexibility. Durable steel construction ensures long-term security, while smart charging options keep devices ready without risk of overloading. With customizable configurations to fit laptops, tablets, and mobile devices of all types, you can manage your technology inventory with confidence, knowing it's secure, organized, and always ready to deploy.

- Store CPUs, laptops, tablets, and more
- Secure storage and charging
- Bulk devices or individual computers
- Heavy-duty steel construction
- Installed or mobile storage options
- Available in various sizes and configurations
- Integrates with high-density storage systems
- Durable powder-coated finish available in multiple colors
- Limited lifetime warranty
